

Pattresses Direct Environmental Policy

ENVIRONMENTAL PURCHASING COMMITMENT

Pattresses Direct have been keen to promote their timber environmental commitment, buying materials from recognised agents and mills who ensure the safe management of their forests, and a programme of re-forestation.

At Pattresses Direct, we source all our timber-based products from suppliers who demonstrate their commitment by running a Chain of Custody (C.O.C.) system. These systems are certified to the standards of the FSC® (Forest Stewardship Council®), which promotes good forest management and traceability of wood products, while discouraging the conversion of forests into other habitats.

To this end we have also gained certification Chain of Custody.
